

Many Hujjaj have been asking what the walking distances are over the 5 days of Hajj if you choose or need to walk to and from the main sites of Hajj as well as when you are considering Shifting and non-shifting.

These are our metrics over the last few years using GPS, they may NOT all apply to everyone- *it's simply a guide* to give you an indication of the expanse of Al Mashaeer and Haraam areas in case you are walking and trying to ascertain distances.

5.5 miles Haraam to Mina (location-based)

7.99 miles Mina to Arafat (Mina Muassim to Arafat entry point)

5.6 miles Arafat to Muzdalifa (Arafat bridge to Muzdalifa entry point)

1.67 miles Muzdalifa to Mina (Muassim)

1.98 miles Mina Muassim to Mina Majar Al Khabsh / Jamarat

2.86 miles Mina to Aziziyah via Jamarat (Location based)

0.8 miles Muassim Europe camp slaughterhouse to Mina (access point from ring road to Muassim camps when dropped by taxi)

5.51 miles Mina to Haraam (tawaf e ziyarah)

2.85 miles covered during Tawaf e Ziyarah (Tawaf including Sa'ee)

5.51 miles Haraam to Mina after Tawaf e Ziyarah (location-based)

2.95 miles Mina to Aziziyah (location based in Mina- this was pinned at Sidqi Street to Muassim)

1.5 miles Mina Muassim Camp to Bin Dawood via King Abullah road past Kuwaiti Masjid

Total ~44.72 miles

This doesn't include your walks to Jamarat and back to Mina on days 3, 4, and 5, **that would be another 5 miles in total** if you are walking from Muassim and a tad lower from Al Khabsh.

Please treat it as a Guide as they were mapped during our walks from our GPS device.

Please remember the brothers who will be covering these sites on foot, multiple times throughout Hajj in your Khidmah (service)
